

CareerForge AI

Amit Singh Bisht

TuxAcademy Internship Project

Build your resume. Build your portfolio. Get AI-powered feedback — all in one place. github.com/amitbisht2406-cmd/fresh

A Full-Stack Career Platform | Angular · ASP.NET Core · SQL Server · Groq AI (Llama 3.3 70B)

WHY IT EXISTS

The Problem

Job seekers struggle to build an ATS-friendly resume, create a portfolio, and get objective feedback — usually across separate, disconnected tools. CareerForge AI brings resume building, portfolio building, and AI-driven resume review into one unified dashboard.

WHAT IT DOES

Key Features

- ✓ Secure JWT authentication
- ✓ Resume Builder with live preview + PDF export
- ✓ Portfolio Builder (Hero, About, Skills, Projects)
- ✓ AI Resume Review powered by Groq (Llama 3.3 70B)
- ✓ Central Dashboard & Downloads
- ✓ Dark mode, responsive on mobile

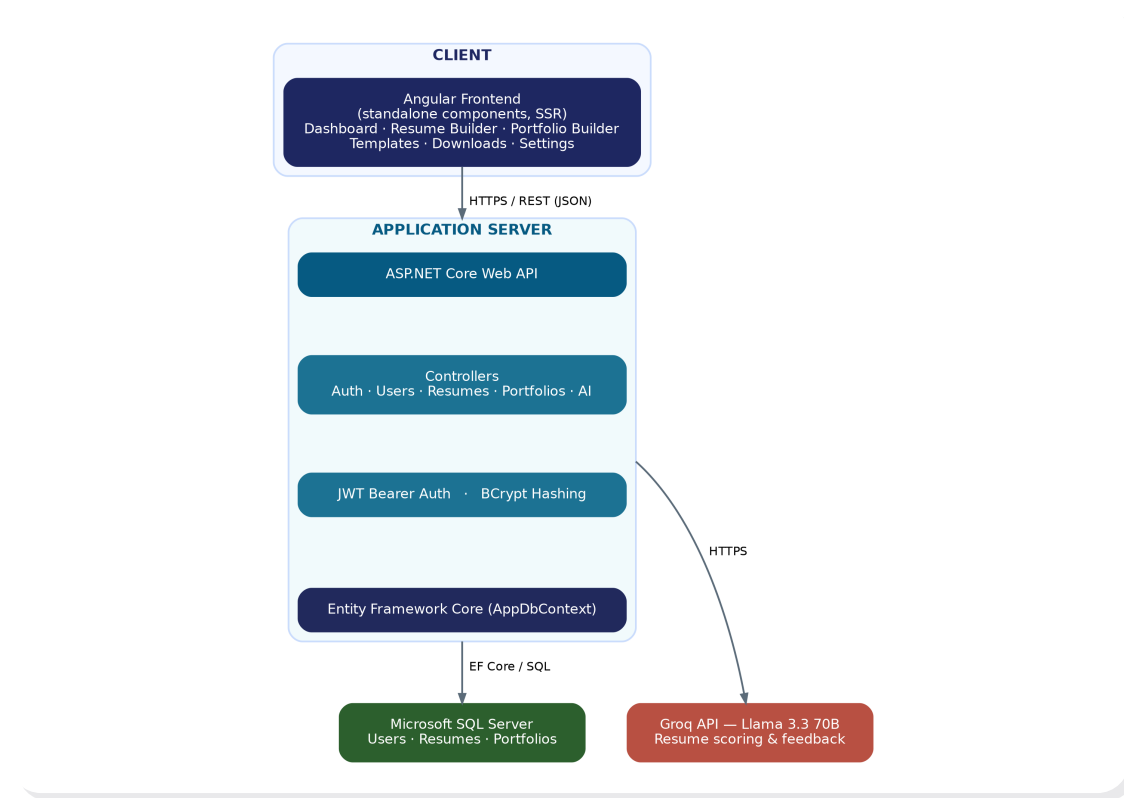

UNDER THE HOOD

Technology Stack

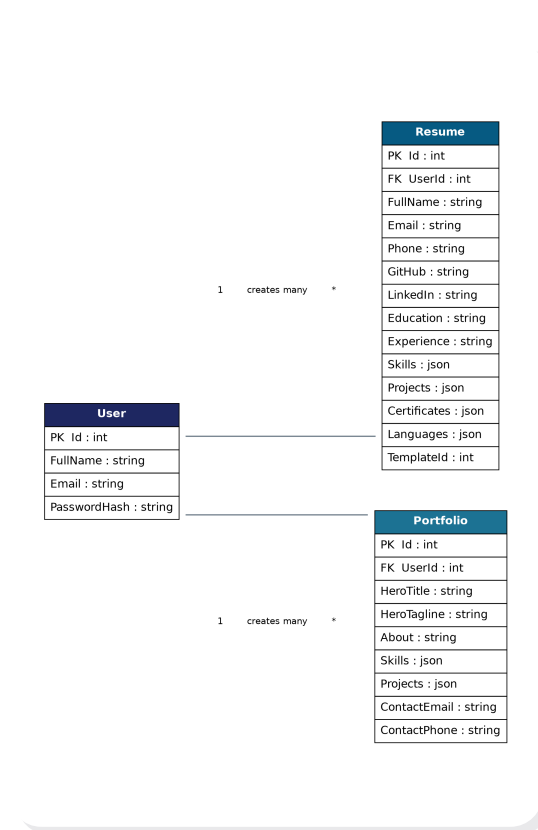

- Frontend:** Angular · TypeScript · html2canvas/jsPDF
- Backend:** ASP.NET Core · EF Core · JWT · BCrypt
- Database:** Microsoft SQL Server
- AI:** Groq API · Llama 3.3 70B
